

“NOTABLE QUOTABLES”

“A conference customised around the ideas of panelists about the critical topics of the day is exactly what we all should come to expect, and IMN is set to deliver in spades at Spring ABS!”

-- Mark Wilten, Group Treasurer, KENSINGTON GROUP PLC

"There is no doubt that the global marketplace is expanding and it only follows that the ABS industry will evolve to meet this changing landscape. Future drivers of return will increasingly be derived away from the US markets and will be based on global markets. IMN has correctly focused on this trend and is delivering content and material in its Spring ABS conference that should benefit the clients of GE Asset Management."

-- Paul M. Colonna, Senior Vice President & Head of Total Return Portfolio Management
GE ASSET MANAGEMENT

"I am very much looking forward to attending and speaking at the Inaugural IMN Spring ABS conference in Miami. I have attended, and spoken at, ABS conferences for many years and have found them very beneficial over the years. I look forward to seeing a well attended and factually interesting conference and hope people sign up early to avoid disappointment"

--Trevor Potheary, Chairman and Chief Executive, MORTGAGES PLC

"It is extremely important to continually explore emerging ABS markets and attract foreign investment in US markets. By marketing our offerings to a more global audience, it provides more liquidity in the market place and increases demand for our products. As our foreign investors have become much more educated in the ABS products, this has also provided investment opportunities in other "niche" products that surround this product space. The upcoming IMN Spring ABS Conference in Miami will provide a tremendous opportunity for issuers to market their offerings to a more global investor community. "

-- Ritchie Mann, Vice President, Investor Relations
NEW CENTURY MORTGAGE CORPORATION

"IMN's events are always well organised and well attended. They offer an overseas issuer such as HBOS a great opportunity to meet US participants and both give and receive updates on our respective markets and businesses."

-- Ian Stewart, Head Securitisation & Structured Analysis, HBOS

"Spring ABS is a good place to get the pulse of a fast changing ABS market."

-- Kishore Yalamanchili, Managing Director, Portfolio Manager, BLACKROCK
