January 8, 2006

NEW YORK, NY – Information Management Network (“IMN”) is anticipating record-breaking attendance of industry leaders at its 3rd Annual Asian Securitisation Summit. Last year’s event welcomed over 500 participants and this year’s gathering promises to be even larger and more impressive in scope. By broadening its conference facilities with the move to Macau, IMN feels it has continued to strengthen its market-leading securitisation event for professionals in the Asia-Pacific region.

In Macau, IMN will provide a forum in which leading investors, issuers, service providers, underwriters and other market participants can meet, discuss and learn about the latest developments in the Asian ABS market. The 3rd Annual Asian Securitisation Conference will address the increased appetite for asset-backed paper by domestic investors in the Asian markets as well look at overseas investor interest for paper issued in the region. The event will also feature country-specific sessions as well as various workshops highlighting areas of innovation, sophistication and growth.

The 2007 program will address such critical topics as:

- Will the potential inherent in China's rapid rise come to fruition in 2007?
- What are the impediments to growth there and is further government deregulation needed?
- Will RMBS maintain its grip on the Japanese market?

- Can Malaysia's structured finance market truly grow without becoming more conservative in its interpretation of Shari'ah rules?
- Where are the opportunities in Korea now that issuance has slowed?
- Will Australia continue its upward trajectory as a regional powerhouse?
- Will REITs continue their attraction in Hong Kong and Singapore?

Macau is the perfect location for the Asian ABS industry's top professionals to gather and discuss these and other pressing issues. The city is only 70 miles from Hong Kong, and is a relaxing and refreshing alternative to mainland China. A world metropolis for gaming and entertainment, Macau is a veritable "Las Vegas of the East" – the ideal venue for networking and client entertaining. With over two dozen resorts and casinos and an exceptional array of restaurants, nightclubs and shopping destinations, Macau is undoubtedly *the* hot venue in Asia right now.

Information Management Network looks forward to welcoming you at its 3rd Annual Asian Securitisation conference this spring in Macau!
