

“NOTABLE QUOTABLES”

“IMN is the recognized industry leader in organizing industry conferences and in promoting securitization globally. Securitization in China has a promising future, and we see a tremendous benefit for the industry players to attend The Summit on Asia Securitization in order to exchange ideas and learn from each other. The CSF is very pleased to join forces with IMN; this partnership will encourage members to attend and will invite guest speakers representing the best players in the Chinese market to participate.”

**- Jun (John) Qian, Executive Director, Securitized Products Group,
MORGAN STANLEY ASIA, Director General, CHINA SECURITIZATION FORUM**

“I’ve attended IMN’s Asian Securitisation Summit for the past few years because the conference is always well attended by an excellent mix of issuers, investors and market facilitators.”

- Leland Sun, Chairman, PAN ASIAN MORTGAGE COMPANY LTD.

“We find IMN conferences to be a successful part of our ongoing interaction with investors, arrangers and issuers. What we like about IMN it is that they manage to gather all the senior staff from investors, issuers and bankers in the one place at the one time and provide the framework for Fitch to position itself as the premier source of credit ratings in Asia Pacific. We’ll see you in April.”

- Ben McCarthy, Managing Director, FITCH RATINGS

“I found the event offered insights into the developments of securitisation from both an issuer and investor perspective, with a strong coverage of individual country prospects and challenges. The event was very productive and it is one of the reasons HSBC is this year's titanium sponsor.”

- Jon Bottorff, Global Head of SCM/ABS, HSBC

“The IMN Conference provides an excellent platform for bankers/lawyers/investors/issuers and service providers to actively discuss past deals and new trends across Asia. All the right people capable of pushing the market forward.”

- Gregory Park, Head of Securitization, CALYON

“SCB was pleased to be the Titanium sponsor of the 2006 ABS event in HK. Securitization in Asia have grown dramatically over the past few years and with the implementation of BASEL II, securitization will become even more important as a funding and investment alternative. Investors and issuers will find the panel discussions very relevant to their needs, as well as the opportunity to meet experts in the industry. We look forward to be again involved in making the 2007 event even more successful”.
