October 1, 2007

**NEW YORK, NY** – Information Management Network (IMN) is pleased to announce that Carlos Rebello, Superintendente de Registros e Valores Mobiliarios at the Comissao de Valores Mobiliarios (CVM), has been confirmed as a keynote speaker for the inaugural [Summit on Brazilian ABS](#). The summit will take place on October 25-26 at the Hilton Morumbi in Sao Paulo, Brazil.

The CVM is also recognized as the Securities and Exchange Commission of Brazil. Its roles include protecting all securities holders against fraud and other illegal actions, assuring public access to all relevant information about the securities traded, and promoting the expansion and efficiency of Brazil's securities market. Mr. Rebello will focus on macroeconomic factors and the role of capital markets in one of Latin America's most booming financial markets.

“Mr. Rebello has his hand on the pulse of the market and is in a position to offer valuable insights,” says Chuck Spragins of Uqbar. The keynote presentation will be a highlight of this timely and relevant conference. As Brazil promises to move forward in the world's securitization market, delegates will find the educational sessions and networking opportunities more valuable than ever.
